

## User's Guide

Founded in 1993, the Canadian Renewable Fuels Association (CRFA) is a non-profit organization with a mission to promote renewable fuels for transportation through consumer awareness and government liaison activities. The Biodiesel Association of Canada led the development of a biodiesel fleet managers handbook. The handbook provides all detailed technical information for using biodiesel in your fleet. The Biodiesel Association of Canada has merged with the Canadian Renewable Fuels Association since the publication of the document.
